

PEAK DISCOVERY ACTIVITY 2d: Explore Car Insurance and Health Insurance

Car insurance is required by law. Health insurance will protect you from the medical surprises in life.

Estimate your car insurance

Call an insurance company to find the insurance cost of the car you chose in the Activity on purchasing a car. Explain to the insurance agent that you are doing research for a career development project. Use your parents' insurance agent, get help from your teacher or counselor, or use the phone book.

Monthly charge:

Costs of violations

Traffic tickets and accidents are very expensive. Ask your agent the costs of:

- (a) one moving violation:**
- (b) one at-fault accident:**
- (c) revoked driver's license:**

Call an insurance agent to get an *estimate* of health insurance for someone your age.

Find the cost for major medical health insurance for your age and health condition. Check with your parents' insurance agent or find one in the phone book, and explain you are doing research for a career development project.

Monthly charge:

Insurance costs per year \$

(Add the two "monthly charges" above and multiply by 12)
