What is PEAK READINESS?

This program will help you set personal goals by showing where you are in relation to where you want to be. It will lead you through several interactive learning exercises that help you learn about yourself, the "real world," and how to make your way in that world.

You will discover that there is a connection between your chosen lifestyle and your education. You will better understand how the real world works through research on your own and in groups. You'll understand some financial terms and create the life you want. You will also learn how much money you will have to earn to live independently.
