PEAK READINESS ACTIVITY 4c: Find Colleges, Compare College Costs

Select one job or career that most interests you.

Locate a college

Go Find It → **In the Online Course**, you'll find links to online resources to search for a college that offers a program for your preferred career or job. Find entrance requirements for that college. Finally, get an estimate of tuition costs and total expenses per semester. The career or counseling office at your school may also have these resources. You may also call the colleges or find some info in the library.

Find a college, local or elsewhere, that offers a degree in your chosen field:

What are the entrance or admission requirements for you to attend that school?

What is the total tuition cost to attend one semester at that school? _____

What is the total cost of attending that school for one semester? _____
